Re: Broadwater Proposal

Can you please try to preserve one of the last tranquil activities we have left to enjoy during our leisure time? The one thing my family and I enjoy most is a day out on the water observing what's left of our environment. The Broadwater is too costly, risky and not needed in the Sound & the constant armed private security disrupts the peaceful tranquil waters of the Sound. This facility will limit public access and sets a dangerous precedent of industrializing the Sound.
